DOURO

The Douro Wine Boat

Contemplating the Douro landscape while navigating along the river is a unique experience. Rivus offers a set of experiences that are not to be missed, on a charming cruise aboard Senhora do Carmo!

Wine Boat Experiences

Since the Dawn of man's existence in the Douro Valley, there have been traces of wine production. The microclimate, the xisty soils, and the great advantage of the river as a means of transport made this wine famous.

Sailing was always the best way to carry the precious wine down to Oporto. Amongst incredible conditions and enormous difficulties, the boats sailed by the force of the current, the wind, and by sheer human will. The Douro became known worldwide, for its wines, its landscape's architecture, it's culture, and it's boats and navigation.

The river was tamed by the dams, which made the navigation safe and tranquil.

The Wine Boat establishes a liaison between the wine, the landscape, the culture and the navigation.

The experiences that Rivus suggests were planned in order to make known these wines, this scenery, these people, and this history.

Without a doubt, we offer a set of unique experiences.
Come and choose yours!
